KENTUCKY POTA

2-Fers & 3-Fers

MULTI-PARK FIELD GUIDE • OCTOBER 2026

Shared boundaries • Trails • Historic trails • Ohio River banks

DO YOUR OWN RESEARCH

This guide is a planning tool put together by the Kentucky Portable Club from public map data. It has not been field-checked at every spot or approved by POTA. Boundaries can be out of date or slightly off and do not show private land, closures or hunting seasons. Confirm each boundary on the official agency map, make sure the land is public and open, and read the POTA Rules. You are responsible for making sure your activation is valid and legal.

WHAT COUNTS AS A 2-FER

2-fer means two POTA parks only (KFF and SOTA are not 2-fers). You and all your gear must be on public land inside every park you log; a shared border does not count. Trails and rivers that are their own park: within 100 ft of the trail or the river's edge. National forests count only on Forest Service-owned land. One log per park.

GPS GRADES ON EVERY SPOT

- **A** Drive up: parking or entrance on file is inside every park.
- **B** Short walk, or a trail crossing you can reach from a road.
- **C** No close parking on file: check satellite view for a road or pull-off.
