KENTUCKY POTA

Field Resource

NUMERICAL ORDER • US-####

Parks • Public Lands • Trails • Forests • Wildlife Areas

We're volunteers working from public maps, and we make mistakes. Before you activate, check the official park map, make sure the land is public and open, and follow each program's rules. Your activation is your responsibility. See something wrong? **Let us know**.

UPDATED LINK SYSTEM

POTA references now point directly to the Next POTA park information page at next.pota.app/park/US-####. Camping, resort, and cabin buttons are direct hyperlinks. Utilities are listed with notes such as "Water only" or "Electric + Water + Sewer" where established.

On this page the list of 193 parks comes from the club's live Kentucky data file, so it stays current. Live data updated 2026-10-23.

FIELD-USE NOTE

Always verify current park operations, campground closures, permits, hunting restrictions, and activation boundaries before travel.

MAPS: USE THE OFFICIAL MAP FIRST

Dark OFFICIAL MAP buttons (gold outline) open maps published by the managing agency (KDFWR, Kentucky State Parks, Nature Preserves, Forestry, NPS, USFS, USFWS). Use them first for activation boundaries.

OSM BOUNDARY buttons open OpenStreetMap, a community-edited source. Its boundaries may be incomplete, outdated or wrong — never rely on them alone. When in doubt, confirm with the agency.

HOW TO READ EACH CARD

US-####	Opens the park's Next POTA information page.
OFFICIAL MAP	Agency map (PDF or page). AREA MAP / BROCHURE = nearby map or brochure.
Park name / WEBSITE	Official park or land-manager website.
GPS	The park's GPS point in Google Maps, for directions.
OSM BOUNDARY	OpenStreetMap at the park — community-edited boundaries.
POTA MAP	POTA map (used where no official site is linked).
WEATHER	The Weather Channel forecast for the park's GPS point.
ENTRANCE	Official Fish & Wildlife entrance point in Google Maps.
ACCESS POINTS	Official parking/access pins in the KPC map file (KML/GPX).
NEARBY	Jumps to this park's nearby-parks list (nearest + all within 25 mi).
CAMPING • RESORT • CABINS	Shown only where available; each opens its linked page.
2-FER	⚠️ Possible POTA overlap only. We think these POTA parks may share ground here, but we can't confirm it. Check both official boundary maps and make your own call before you count it.
ALSO	WWFF (KFF) references and SOTA summits at or near the park. These are other programs, not 2-fers.

NOTES Kingfisher Lakes and Carpenters Lake sit side by side at Maceo: they touch, they do not overlap, so they are not a 2-fer.

US-13600 Carpenters Lake State Fishing Lake

Daviess County • State Fishing Lake

OFFICIAL MAP | GPS | OSM BOUNDARY | WEBSITE | ENTRANCE | WEATHER | NEARBY ›

ACCESS POINTS 3 KDFWR access sites — see KPC map file

NOTES KDFWR calls it Carpenter Lake. Ramp, fishing pier and jetty at Maceo (Hwy 405). No gas motors. Next door to Kingfisher Lakes: if both become parks they would only touch, not overlap, so not a 2-fer. Private boat docks/shoreline permits exist on department lakes, so some shoreline is next to private lots: set up at the ramp, pier or public parking.

NOTES Kingfisher Lakes and Carpenters Lake sit side by side at Maceo: they touch, they do not overlap, so they are not a 2-fer.

KENTUCKY POTA FIELD RESOURCE • NUMERICAL

Kentucky 2-Fers & 3-Fers Index

Please read: this is a research aid, not a ruling. The Park Overlap Finder shows places where our maps suggest two or more POTA parks may share the same ground. It is a starting point for your own research only. The Kentucky Portable Club cannot confirm or deny that any location listed here is a valid multi-park activation site. Park boundaries change, maps can be out of date or imprecise, and private land, closures and local rules may apply even inside a boundary. Before you count an activation, check each park's official boundary map from the managing agency, make sure you are on public land that is open to the public, and follow POTA's activation rules. POTA makes the final decision on every activation, not KPC. You are responsible for confirming your own location. KPC is an independent ham radio club, not part of Parks on the Air®.

GPS POINTS ARE NOT EXACT • THEY ONLY GET YOU TO THE AREA • DO YOUR OWN RESEARCH • CONFIRM EVERY BOUNDARY ON THE OFFICIAL MAP

ABOUT THESE GPS POINTS

The GPS points in this index are not exact activation spots. They are rough guide pins put together by KPC to get you to the general area where two or three parks may meet. Nobody has confirmed you can set up right at that point. Before you count a 2-fer or 3-fer, check every park's official map and boundary, make sure you and your gear are on public land inside each park (within 100 ft of the trail or water for trail and river parks), and follow each program's rules.

All 71 places in Kentucky where you may work two or three POTA parks at once (16 3-fers, 55 2-fers), checked against the POTA rules by the Kentucky Portable Club. Park names and numbers match the POTA Kentucky park list. GPS POINTS ARE NOT EXACT: they are guide pins that only get you to the area of the possible 2-fer or 3-fer, not to a confirmed spot. You and your gear must be on public land inside every park; trail and river parks within 100 ft of the trail or water (riverbank pins are approximate and were not checked against the water line); national forests only on Forest Service-owned land. Wickliffe Mounds, Big Bone Lick and Golden Pond are NOT within 100 ft of the river or trail; they rely on the NPS Lewis & Clark visitor center list. Tap a GPS point to open it in Google Maps. More detail, parking, NPS sources and walk-in points are in the KPC 2-Fers & 3-Fers Field Guide in the Members Room.
